25X1 5. The factory employs a total of 76 workers, in two 8-hour shifts: 50 men in the first department, and 20 women and six men in the second department. The six men are machine operators. The technical personnel consists of: One gngineer; Four technical specialists (two for each shift in the first department); and Two technical specialists (one for each shift in the second department). 6. To transport materials to and from the Bankya railroad station, the factory utilizes one 5-ton truck and two horse-drawn vehicles. 7. Security is maintained by an 11-man Militia detachment, rather than byya military unit. Guard duty is performed in three 8-hour shifts, alternating in the three fixed sentinel posts. Guards are paid monthly as are the workers. 8. The sketch below shows the following installations: A. Storeroom. Offices, kitchen. C. First department, powder production; Second department, cartridge loading. E. New construction. F. Workers' lodgings. Garage, stable. H. Workshop. I. Reserve Officers School. Verdi Kalska
